A Frontend Oriented Full-Stack Software Engineer with extensive experience in both front-end and back-end development, specializing in React, Node.js & Expressjs Possesses a demonstrated history of success in the information technology and services industry. Proficient in React, JavaScript, Typescript, React Native. Skilled in collaborating with diverse international teams and clients, adept at crafting cutting-edge B2B and B2C solutions. Committed to ongoing learning and proficient in mastering new technology stacks. A quick learner and student of computer engineering field, reflecting dedication and expertise in the field.

## Experience

### **Technologia Solutions LLC.** (december 2022 - present)

- **Rankify-AI** (React, React-Router-Dom, Material-UI, React-Hook-Forms, Axios, Prisma, Nest, PostgreSQL)
  - Rankify AI is a platform that focus on generating undetectable and human-like content
  - I worked as a core frontend developer and founding member of rankify-ai
  - Designed screens from authentication, onboarding to dashboard screens
  - Designed various UI components
  - Integrated APIs
  - Adapted quickly to changing requirements and prioritized tasks effectively to meet project deadlines.
  - Worked collaboratively in Agile development environments, participating in sprint planning, daily stand-ups, and retrospective meetings.
  - Implemented security measures such as input validation, authentication, and authorization to protect against common web vulnerabilities & exception handlings.
- **Edaly** (React, Node, Express, Material-UI, Redux, Router-Dom)
  - Edaly is a platform to connect and educate kids throughout the world securely and reliably with AI
  - I worked as a junior full-stack developer on this project
  - Implemented MVC Architecture by creating services, routes & controllers for various features
  - Established CRUD methods
  - I collaborated with others in Agile development settings, taking part in sprint planning sessions, daily stand-up meetings, and retrospectives.
  - Designed various frontend screens & components
  - Followed coding standards and best practices to ensure clean, readable, and maintainable code.

## Skills

<b>Programming Languages</b>	Javascript, TypeScript, SQL, python, java, c#, c++, css
<b>Libraries/Frameworks</b>	React, Redux, Material-UI, React-hook-forms, Express, Node, Firebase, Framer-Motion, React-Native, React-Navigation, Expo, Jframe, Pygame, ASP.net, Axios, React-Router-Dom, Bootsrap, Tailwind, Pymovie, openai-api, cohere-ai
<b>Tools/Plateforms</b>	visual studio code, github, jira, clickup, postman, chatgpt, stackoverflow, github-copilot, pgadmin, Azure, Railway, Firebase, Figma
<b>Databases</b>	postgreSql, MS-Access, Firestore

---

## Education

 **Bahria University** ( 2021 - 2024 expected )

- Bachelors of Computer Engineering
- 

## Projects

- **Edaly** – An online Education platform Connects learners with the best education providers, regardless of location
  - **Rankify-AI** – An AI based platform dedicated to producing content that is undetectable and human-like in nature for seo optimization.
- 

## Languages

- **Urdu** – Native
- **English** – Intermediate
- **Arabic** – Basic
- **German** – Learning Level
